Author of *Bringers of the Dawn,*  
*Earth and Family of Light*

## Barbara Marciniak

Thursday, February 6, 2003  
at 7:15 pm

Pullen Memorial Baptist Church  
1802 Hillsborough Street, Raleigh, N.C.  
Admission \$5.00

*'Some people have fallen prey to the belief that beliefs are facts or attributes of existence that are indisputable truths. Beliefs are actually agreements about reality, and agreements can be changed. ... It is possible to experience life and all its wondrous offerings in joy, safety and harmony, and that is a belief.'*  
*The Pleiadians*

Since 1988 Barbara Marciniak has been channeling the Pleiadians, a collective of multi-dimensional beings from the star system known as the Pleiades. These energies called the Pleiadians have come here to assist the human race during this time of enormous challenge and great opportunity. Their teachings encourage us to live from a position of our own truth and power, to think for ourselves and not blindly follow others - not even the Pleiadians themselves.

On Thursday evening, Barbara will discuss the current climate of events in the world, share astrological influences that are currently active and offer an overall spiritual assessment of where we are today. She will share some of the Pleiadian teachings and also channel new material. Experience for yourself their distinctive style that blends wit, wisdom, common sense and compassion.

Barbara Marciniak is an internationally acclaimed trance channel and best selling author. Her books have been translated into more than twenty languages and have sold over half a million copies world-wide. Her extensive world travels, astrological studies, and a lifetime of alternative and free thinking augment her deep insight and personal understanding of her relationship with the Pleiadians.

**There will not be an early meditation this evening.  
Please park in church lot or on the street, NOT in the hotel lot across the street!**
